Transmittal No. 25-86

**Israel – Namer Armored Personnel Carrier Power Packs Less
Transmissions and Integrated Logistics Support**

WASHINGTON, January 30, 2026 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Israel of Namer Armored Personnel Carrier Power Packs Less Transmissions and Integrated Logistics Support and related equipment for an estimated cost of \$740 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress.

The Government of Israel has requested to buy Namer Armored Personnel Carrier (APC-MT883) Power Packs Less Transmissions (NPPLTs) in full and lite configurations. Also included is an integrated logistics support package that includes special tools for C-Level maintenance and transmission parts; control and diagnostic systems; preservation and packaging; containers; configuration management; technical manuals, spare parts catalogs, other documentation, and publications; U.S. Government and contractor technical assistance and contractor non-recurring engineering (NRE); and other related elements of logistics and program support. The estimated total cost is \$740 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic regional partner that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Israel's capability to meet current and future threats by improving its ability to defend its borders, vital infrastructure, and population centers. These power packs will be used on Namer Armored Personnel Carriers (APC-MT883) that were fielded in 2008. Israel will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Rolls-Royce Solutions America, Inc., located in Novi, MI. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Political-Military Affairs Outreach team, at T_Outreach_PM@state.gov.
