From: Department of War (DoW) Personal Property Activity (PPA), Scott AFB, IL 62225

Subject: Installation Information in the Transportation Facilities Guide (TFG)

1. The Transportation Facilities Guide (TFG) is a web-based platform that centralizes logistical and operational data for military and government installations. The platform provides essential details—including facility locations, operating hours, and security protocols like REAL ID requirements—to ensure that transportation missions are executed efficiently and securely. The TFG is accessed from the main menu of the Global Freight Management (GFM) system.
2. Freight Carrier Registration Program (FCRP) approved TSPs should already have GFM access. For non-FCRP-approved TSPs such as Household Goods (HHG) and Non-Temporary Storage (NTS) providers who only require access to the installation information in the TFG, the “Carrier-TFG Only” role in GFM will provide access to GFM and the TFG.
3. Access to the “Carrier-TFG Only” role is managed through the Transportation Enhanced Access Management Service (TEAMS). Prior to applying for a TEAMS user account and requesting this role, TSPs must obtain an External Certification Authority (ECA) certificate. Detailed information regarding ECAs can be found at <https://public.cyber.mil/eca/>
4. To request this role, TSP representatives should visit the US Army Transportation Command (ARTRANS) TEAMS website at <https://eta-teams.transport.mil/teams/registration/request> and select “Register as a new user” from the menu on the left. Information related to system access requirements and registration, to include information on ECAs, can be found by clicking the “Links” icon the lower left of the ARTRANS TEAMS website.
5. For assistance with setting up a TEAMS or GFM account, please contact TEAMS support at 1-800-462-2176 or usarmy.scott.artrans.mbx.g6-src-TEAMS-hd@army.mil.
6. The PPA J3 Director approved this advisory for release.
