(U) Regarding artifacts:

(U) Does the collection have a GUHOR stick? My orientation class in 1979 taught us how to use them, by way of learning traffic analysis. I wish I'd kept mine!

(U) I've made a WikiInfo entry in the History category about the "USE THIS DOOR - AVOID ACCIDENTS" signs that adorned double doors of Agency buildings, at least in FANX and possibly elsewhere, and I hope someone kept some of those.
